

## Technology & Innovation Exhibition 2006 and Meet the Buyer

Venue: Culham Science Centre Date: 29th June 2006

**"Torr Scientific has benefited from this exhibition. We have made some good contacts and connected with some of our fellow exhibitors that we can do business with."** said David Bates from Torr Scientific. This was the opinion of many of the companies exhibiting at this year's Technology & Innovation Exhibition, which was held in conjunction with the 'ITER Business Opportunities for UK Industry' Event. As well as staff working on Fusion, employees of many of the high-tech companies sited at Culham attended the exhibition.

### Culham attracts record number of Exhibitors

The exhibition attracted a record number of exhibitors and a record number of visitors, including delegates attending the ITER event, giving exhibitors the added bonus of making new contacts with representatives from companies and organisations both in the UK and overseas who would not normally attend the exhibition. Malcolm Ion representing Eurotherm who specialise in

**"We find these exhibitions very useful for making new contacts and networking. We met key members of Culham's engineering team and discussed their requirements."**  
Steve Mountain, Essex X-Ray.

controls and instrumentation said, "ITER is of interest to our company. We already do a small amount of work in the nuclear research industry, so this exhibition, along with all the other Nu-Tech exhibitions, has been a great discovery for our company and definitely targets the market we are looking for."

Many companies were exhibiting for the first time at Culham and were pleased with the number of contacts they made. "We had a pleasing number of attendees, mostly site employees. It is the first time we have exhibited here and we have made twelve or more new contacts today," said Brian Dempster, from Habia Cable. This view was endorsed by David Watt from Canberra Harwell, "This is the first time we have exhibited at Culham, Canberra are agents for Caen Nuclear who manufacture high-end electronics which are currently being used on the site. We have made some interesting contacts today."

**"The Culham Exhibition was excellent for making contact with customers and an excellent platform to sell our products"**  
Steve Sparkes, Swagelok, Europe.

### Meet the Buyer

Fiona Digby-Grant, Head of Contracts at Culham gave presentations on contract opportunities available at Culham and with UKAEA which proved very popular with delegates at the exhibition and ITER event.

## 6th June 2006 TM Engineers

TM Engineers Ltd exhibited their manufacturing and design services for the first time at Culham. They displayed their in-house capabilities including the 'Large Gantry Milling' facility allowing machining up to 20m in length, the Horizontal Boring and Turning and their Heavy

**Fabrication facility with the capability to handle items up to 50Tonnes.**

Simon Laycock, Sales Manager said "Having the opportunity to offer our large bespoke manufacturing services direct to the engineers on site at Culham should reap rewards. We were warmly welcomed and discussed with

engineers many topics where machining and welding of the highest quality is required. Having the opportunity to promote our business at Culham for a very reasonable price was an opportunity too good to miss."

**For further information contact Simon Laycock on 01384 400212, e-mail: [simon.laycock@tmengineers.co.uk](mailto:simon.laycock@tmengineers.co.uk) or visit [www.tmengineers.co.uk](http://www.tmengineers.co.uk)**

## 20th June 2006 Intelliconnect

Intelliconnect who are a relatively new UK manufacturer of RF Coaxial connectors, components and cable assemblies were very pleased to be given the opportunity to exhibit for the first time at Culham. Along with sales partner UKRF Ltd, Intelliconnect found the day a great success.

Roy Phillips, Intelliconnect's Managing Director commented, "We made some

fascinating and very high quality contacts and are in discussions at the moment on a couple of interesting projects. "There was particular interest in UKRF's range of microwave amplifiers and Intelliconnect's Triaxial and High voltage ranges of interconnect products. "The organisation and hospitality we received from Culham staff was exemplary and we look forward to returning in 2007" added UKRF Sales and Marketing Manager Richard Bishop.

## 6th July 2006 Joint Exhibition - Schroff UK/Lee Dickens

### Lee Dickens

Lee Dickens were not only exhibiting their range of Signal Convertors, Trip Amplifiers and Sensors, but also highlighting their ability to produce instruments to a bespoke design. This can often include reproducing instruments that have been made obsolete by other manufacturers.

Lawrence Woolgar said, "The exhibition was well attended and a number of new contacts were established with the various companies and contractors working at Culham. This was mainly due to the exhibition being shared by Lee-Dickens and Schroff UK as both companies have compatible products."

**For further information contact Lawrence Woolgar on 01536 760156, e-mail: [lawrence.woolgar@lee-dickens.co.uk](mailto:lawrence.woolgar@lee-dickens.co.uk) or visit [www.lee-dickens.co.uk](http://www.lee-dickens.co.uk)**

### Schroff UK Ltd

Schroff UK Ltd, a leading manufacturer of electronics packaging solutions welcomed the opportunity to display for

the third time a small selection of their product range which extends from cabinets, cases and subracks to power supplies, backplanes for VME and CPC1 and micro computer systems. This year their display was centered on the ATCA system and VARISTAR cabinet range.

"Based on globally standardised subracks, cases and cabinet systems, we design and build complete packaging solutions. We place great importance in meeting customers to inform them about the developments of Schroff's product range and services", says Regional Sales Manager, Glenn Conlon.

**For further information contact Glenn Conlon on 01442 240471, e-mail: [glenn\\_conlon@schroff.co.uk](mailto:glenn_conlon@schroff.co.uk) or visit [www.schroff.co.uk](http://www.schroff.co.uk)**

## Future Exhibitions at Culham

Craftec	12th Sept
Hamamatsu Photonic and Vacuum Generators (joint)	26th Sept
Habia Cable Group	12th Oct
Data Translation Ltd	26th Oct
LEMO UK	2nd Nov
SealCo and Accles and Pollock (joint)	16th Nov
AMELEC Instruments Ltd	28th Nov
Reaction Engines Ltd Special Exhibition	18-22 Sept

**If your company would like to stage an exhibition at Culham please contact [deniese.willis@ukaea.org.uk](mailto:deniese.willis@ukaea.org.uk) or call 01235 466608.**
