

20th September 2005 Nor-Cal UK

Nor-Cal UK, a leading manufacturer and supplier of stainless steel vacuum components, are regular exhibitors at Culham.

They offer the full range of Nor-Cal products, including high vacuum and ultra high vacuum flanges, fittings, valves, foreline traps, feedthroughs, manipulators and heater jackets. John Judson, Director, from Nor-Cal

told Fusion Business, "We are regular exhibitors at Culham, but still made some good contacts to follow up. Exhibiting at Culham is always a good opportunity to get our name in front of potential buyers, and also a chance to show new products and developments we have to a wider audience."

For further information please contact: John Judson on 01285 771252, e-mail: jjudson1@aol.com or visit their website at www.norcaluk.com

27th September 2005 Hamamatsu Photonics UK

Hamamatsu Photonics UK Limited, a leading manufacturer of devices for the generation and measurement of X-ray, visible, infrared and ultraviolet light, recently exhibited at Culham for the first time.

They welcomed the opportunity to introduce their state-of-the-art products including the CMOS Flat Panel sensor for real-time X-ray

imaging applications, ultra-fast Microchannel Plate PMT and CCD cameras. Their Flat Panel Position Sensitive Photomultiplier Tube (PMT) with 256 channels proved to be a popular exhibit, having potential applications in beam diagnostics.

Hamamatsu's Helen Moyses and Nick Bowers said "We were warmly welcomed at Culham, and the event organiser provided very effective support and pre-show promotion. This was an ideal forum for us to introduce our product

range and find new business opportunities. We were very impressed by the number of visitors to our stand, and we received many interesting enquiries. We hope to develop our new relationships within UKAEA, and will certainly be returning again next year."

For further information please contact: Helen Moyses on 01707 294888, email: helen.moyes@hamamatsu.co.uk or visit www.hamamatsu.com

6th October 2005 ALR Services

ALR Services, one of the UK's largest Printed Circuit Board (PCB) suppliers, found that there was particular interest in the high temperature and specialist laminates currently available, when they exhibited at Culham in October.

"It was an interesting opportunity to discuss our unique ability to provide a full purchasing and technical support service." said Jim

Rosseter, Managing Director. "We made a number of useful contacts, many new who were keen to share our experience in the manufacture of newly designed PCBs and indeed industry developments in all aspects of printed circuit board production. The impending lead free initiatives were also a popular topic of conversation."

For further information please contact: Jo Saltman on 01865 400616 e-mail: sales@alrpcbs.co.uk or visit their website at www.alrpcbs.co.uk

20th October 2005 Martec Ltd

Martec, a manufacturer of hermetic connectors, glass to metal seals and ceramic feedthroughs, who specialise in the design and manufacture of custom build solutions for mission critical applications, recently exhibited at Culham.

Gráinne McPartland, Sales Executive told Fusion Business, "All our visitors had an understanding of our products and how they could be utilised to suit their individual requirements. This gave us the opportunity to

discuss the design and manufacture of bespoke products, based on specific customer design constraints."

"Throughout the day it became apparent that a lot of interest was shown in both our ceramic feedthroughs and UHV vacuum connectors, setting a definite area of development and requirement between Martec and UKAEA, one we hope to develop further over the coming weeks and months."

For further information please contact: Gráinne McPartland on 01227 793733, e-mail: sales@martec.ltd.uk or visit www.martec.ltd.uk

2nd November 2005 LEMO UK

Following on from previous exhibitions at Culham, LEMO UK Ltd were pleased to exhibit for

the fourth time. It was a very successful exhibition with a constant flow of visitors throughout the day. Neil Jenkins, the recently appointed LEMO Sales Engineer said, "It was of huge benefit for me to meet existing customers as well as making some interesting new contacts".

"This year's exhibition allowed us to demonstrate our range of products and gave us a great opportunity to promote our new range of catalogues. We had positive feedback from those who are already aware of the LEMO range of electrical and fibre optic connectors and our cable assembly services, and enquiries from new contacts.

Fibre optic connectors were of particular interest this year. Great interest was shown for hybrid varieties, featuring a mix of fibre, power and co-axial contacts within one connector."

For further information please contact: Neil Jenkins on 01903 234543, e-mail: njenkins@lemo.com or visit www.lemo.co.uk

11th November 2005 Institution of Electrical Engineers

The Institution of Electrical Engineers (IEE) spent a day at Culham advising those working in electrical, electronic and software engineering on a number of issues to do with their professional development.

The IEE's Regional Development Manager, Martin Copland was able to provide help and guidance to individuals looking at becoming Chartered Engineers and to discuss the

benefits of IEE membership. Those who visited the stand were able to find out about the wide range of specifically tailored products, services and qualifications designed by the IEE to meet the needs of today's technology industries and to support engineers and the companies they work for.

For further information please contact: Martin Copland on 07879 491800 or email at mcopland@iee.org.uk or visit the IEE's website at www.iee.org.

17th November 2005 Sealco

Sealco, in-conjunction with their partners HTMS, exhibited at Culham for the first time in November. They showcased their metal-to-metal seals for extreme applications, including C-Rings and O Rings in all shapes and sizes.

"This was a great opportunity for us to develop both existing and new contacts at Culham. During the day we were given opportunities to tender against current applications, and also obtained several new applications. By the end of the exhibition, we had already received an order from a new company to us located on site," said Rob Fowkes from Sealco. "We look forward to exhibiting at Culham again next year."

For further information on Sealco, and our Sealing Products please contact: Rob Fowkes on 0121 451 2875, or e-mail: sales@sealco.co.uk

Future Exhibitions at Culham

Alcatel Vacuum & Hoebiger-Origa	1st December	2005
React Engineering	12th January	2006
Oxford Bearings Limited	26th January	2006
Keithley Instruments	9th February	2006
RS Components	23rd February	2006

If your company would like to stage an exhibition at Culham please contact deniese.willis@ukaea.org.uk or call 01235 466608.
