

16th June 2005 Weir Strachan & Henshaw

Weir Strachan & Henshaw demonstrated their experience and skills in front-end systems design and substantiation within the nuclear industry at Culham recently.

Representatives Christian Baker and Andrew King said, "It was an interesting format and a welcome opportunity to get Weir Strachan & Henshaw's capabilities across. It was also a good opportunity to understand the unique requirements of the Culham site. Opportunities

were identified for services from Computational Fluid Dynamics (CFD) and process analysis through to mechanical and electronic system design. During the day numerous

new contacts were made, and the overall expectation was that mutually beneficial relationships would be developed across the site. Weir Strachan & Henshaw will definitely be looking for an opportunity to exhibit at Culham again in the future."

For further information please contact Christian Baker at Weir Strachan & Henshaw. Tel: 0117 344 9334, e-mail: christian.baker@weirsandh.com or visit their website at www.weirsandh.com.

23rd June 2005 Innolas UK

Innolas UK recently exhibited laser heads and associated parts at Culham. Their white light machine developed in

collaboration with the scientists and engineers at Culham proved to be a popular exhibit. This equipment is designed to investigate novel ways of cleaning the carbon tiles inside the JET Torus. Various other applications for this technique may evolve as its full potential is examined.

Also on show was the latest version of the large Nd:YAG series of high energy flashlamp pumped lasers, displaying the innovative use of

carbon fibre structures to provide a stable fabrication for the optical head.

Sales Director Janet Hull said "It was good to meet existing customers from the site, and to make some new contacts with very interesting applications, which may result in some new business for us."

For further information please contact Janet Hull or Ian Duckett at Innolas UK. Tel: 01788 550777, fax 01788 550888 or e-mail: Innolasuk@aol.com.

7th July 2005 Schroff UK

Schroff UK, leading manufacturers of electronics packaging systems, recently exhibited at Culham for the second time. Based on globally standardised subracks, cases and cabinet systems, Schroff design and build complete packaging solutions.

Schroff welcomed the opportunity to display a small selection of their product range to Culham staff. This year their display was centred on the new VARISTAR cabinet range which offers a single system for all solutions. The basic cabinet platform can be

built up to create a wide spectrum of designs from open frame cabinets to full EMC and IP ratings with a load-carrying capacity up to 800 kg. With their extensive integration service Schroff are in a position to offer customers a complete packaging system for 19" technology.

"The exhibition was the ideal opportunity to meet new and existing customers and illustrate the breadth of our products and services," said Glenn Conlon, Sales Engineer at Schroff UK. "Enclosures are not an easy product to demonstrate through catalogues and websites alone and

the chance to show people the specific product features is more than welcome. We wish to thank all visitors and look forward to returning again."

For further information please contact Glenn Conlon at Schroff UK. Tel: 07850 911572, e-mail: glenn_conlon@schroff.co.uk, or visit www.schroff.co.uk

Kurt J Lesker who specialise in the design and manufacturing of vacuum technology solutions for research and production applications exhibited at Culham recently and has won a major contract to supply a PVD75 Evaporator System to Culham's Special Techniques Group (see page 3 of Fusion Business).

Sales Manager, Ian Dorman said, "We have not exhibited at Culham

for a few years but our recent visit in July reinforces why the Culham site is such a great place to do business. The exhibition is always received enthusiastically and has great support from the staff on site."

For further information please contact Ian Dorman at Kurt J Lesker. Tel: 01424 719101, e-mail: iand@leskerltd.com, or visit www.lesker.com

Culham Conference Centre *offering the right venue every time*

Culham Conference Centre offers businesses the right venue every time for any type of meeting. The Centre also hosts the popular Fusion Business foyer exhibitions. Whether it's a board meeting, conference, exhibition or training course, the professionalism and attention to detail of the conference team allows you to concentrate on your meeting, leaving the rest to them.

The conference centre has a fully equipped 234 tiered lecture theatre

and 6 smaller meeting rooms catering for 6-60 delegates. All these options can be booked separately or combined to accommodate your conference needs and are offered at competitive rates to all businesses both on and off site. The conference centre also boasts its own catering services, offering a large selection of buffet menus and restaurant lunches.

Managed by OCS Hospitality Services in partnership with UKAEA, the Culham Conference Centre benefits from good access to motorways and the rail network at Didcot Parkway. Set in the heart of the Oxfordshire countryside the 195 acres site is the perfect setting for corporate gatherings, conferences and events.

For further details and for current offers please ring Joanna England or Sandy Smout, at OCS Hospitality Services, on 01235 466494 or e-mail: culham.catering@ukaea.org.uk
